# "This Program, Embodiment of Great Juche Idea of Comrade KIM IL SUNG Was Indeed Great Revolutionary Program...."

## High Tribute of World Peoples to 34th Birthday Of Association for Restoration of Fatherland

PYONGYANG, May 5 (KCNA) —"The founding of the Association for the Restoration of the Fatherland not only had great significance in the anti-Japanese national liberation struggle of the Korean people but also made a great contribution to the movement of the anti-imperialist, anti-fascist united front."

So stressed Radio South Yemen referring to the world historic significance of the founding of the Association for the Restoration of the Fatherland during the anti-Japanese armed struggle of the Korean people.

Today is the 34th anniversary of the founding of the Association for the Restoration of the Fatherland.

Today 34 years ago Comrade Kim Il Sung, the genius in military strategy and great Leader of the revolution, founded the Association for the Restoration of the Fatherland, the first organisation of the united anti-Japanese raticral front in our country.

The Association for the Restoration of the Fatherland was a permanent organisation of the united anti-Japanese national front with its unique system and form of organisation and, at the same time, a revolutionary organisation with the Korean Communists as its core under the personal leadership of Comrade Kim Il Sung, the great Leader of the Korean revolution.

Indeed, the foundation of the Association for the Restoration of the Fatherland was a precious fruit of the great plan elaborated by Comrade Kim Il Sung over a long period for the purpose of crushing Japanese imperialism and restoring the fatherland by uniting all the patriotic forces and of the sanguinary struggle for its realization; it was an event marking a turn in the development of the anti-Japanese national liberation struggle of our people.

Comrade Kim Il Sung founded the Association for the Restoration of the Fatherland and made public the 10-point Programme of the Association for the Restoration of the Fatherland, an original programme which reflected in an all-round way the demands of the revolutionary programme of the Party of the working class in the stage of the anti-imperialist, anti-feudal democratic revolution.

The founding of the Association for the Restoration of the Fatherland and the expansion of its organisational network brought about a great upswing in the anti-Japanese national liberation movement of the Korean people.

The world revolutionary people, therefore, pay high tribute to the revolutionary exploits pulled off by the Association for the Restoration of the Fatherland and draw strength of inspiration from its fighting experiences.

Akustin Sanchez, representative of the Venezuelan National Liberation Front in Havana, had this to say:

"Comrade Kim Il Sung founded the Association for the Restoration of the Fatherland at that time, thereby attaining the national unity of the anti-Japanese forces and the unity of their action for the first time in the history of Korea and brilliantly realizing a nation-wide united anti-Japanese national front. Therefore, the founding of the Association for the Restoration of the Fatherland acquired not only great significance in the development of the anti-Japanese national liberation movement of the Korean people but also great importance in showing practical example and exerting a revolutionary influence on the world oppressed peoples who have embarked on the road of the anti-imperialist revolutionary struggle for their national and class liberation."

Referring to the 10-point Programme of the Association for the Restoration of the Fatherland, he said with emphasis: "This programme, an embodiment of the great *Juche* idea of Comrade Kim Il Sung, was indeed a great revolutionary programme in which Marxism-Leninism was most creatively applied to the realities of Korea and a banner and beacon brightly illumining the road of the Korean revolution."

Pakistani paper "Tameer" said: "The line of the united anti-Japanese national front and a series of other revolutionary lines put forth by Comrade Kim Il Sung were run through with the Marxist-Leninist, principled stand, the idea of *Juche*, the thoroughly anti-imperialist revolutionary idea and revolutionary spirit of uniting all the anti-Japanese forces and building up the internal forces of recvolution and accomplishing the Korean revolution by the Koreart people themselves."

"The founding of the Association for the Restoration of the Fatherland marked a turning point in vigorously rousing the Korean people to the sacred struggle for the independence of the country and the freedom and liberation of the people," said Iraqi paper "Al Neur."

UAR paper "Al Gumhuriya" wrote:

"The movement of the united anti-Japanese national front personally organized and guided by Comrade Kim Il Sung successfully played the role of pioneer in the united anti-imperialist front movement and the anti-imperialist joint action.

"Indeed, the line of the united anti-imperialist national front and the line of the anti-imperialist joint action put forth by Premier Kim Il Sung and precious exploits performed and experiences accumulated in the course of the struggle for their realisation made a great contribution to the development of the international revolutionary movement and further enriched the treasure-house of Marxist-Leninist theories."

As the world revolutionary peoples say, the Association for Restoration of the Fatherland helped strengthen the Anti-Japanese Guerrilla Army and accelerated the overall expansion and development of the armed struggle.

After defeating Japanese imperialism and triumphantly returning to the fatherland, Comrade Kim Il Sung, an outstanding Marxist-Leninist, concretized and developed the 10-point Programme of the Association for the Restoration of the Fatherland to suit a new situation created after Liberation and expedited successfully the revolution and construction of our country.

# Premier KIM IL SUNG Sends Greetings to Prince NORODOM SIHANOUK

*PYONGYANG, May 5 (KCNA)— Premier Kim Il Sung of the Cabinet of the Democratic People's Republic of Korea sent on May 5 a telegram of greetings to Prince Norodom Sihanouk, Head of State of Cambodia and Chairman of the National United Front of Kampuchea, in connection with the formation of the Royal Government of National Union under the leadership of the National United Front of Kampuchea.*

*The telegram of greetings reads:*

With regard to the formation of the Royal Government of National Union under the leadership of the National United Front of Kampuchea with Prince Penn Nouth as its Prime Minister, I, in the name of the Government of the Democratic People's Republic of Korea and the entire Korean people and in my own name, warmly welcome it as the only legitimate Government of Cambodia and extend wholehearted felicitations to you and the friendly Cambodian people.

The proclamation of the political programme of the National United Front of Kampuchea and the formation of the Royal Government of National Union under the leadership of the National United Front of Kampuchea at this moment when the U.S. imperialists are perpetrating large-scale armed invasion of Cambodia, mark an event of great significance in more powerfully rousing the entire Cambodian people to the sacred struggle against the U.S. imperialist aggressors and the right-wing reactionary clique of Cambodia, their lackey, and firmly uniting the patriotic, democratic forces of Cambodia.

The war of resistance against U.S. imperialism and for national salvation the Cambodian people are now waging under the leadership of Your Highness Prince and the National United Front of Kampuchea is a just struggle for defending the sovereignty of the nation and winning genuine freedom and liberation of the country and a sacred struggle for peace in Indochina and the rest of Asia.

The Government of the Democratic People's Republic of Korea and the Korean people sternly denounce the U.S. imperialists' armed invasion of Cambodia as a most heinous, brigandish act of aggression and once again manifest firm militant solidarity with the Cambodian people in their courageous fight against the U.S. imperialist aggressors and the right-wing clique, their lackey.

The Korean people regard it as their due internationalist duty to actively support and encourage with might and main the Cambodian people in their just struggle against the U.S. imperialist aggressors, the common enemy.

Expressing the belief that the courageous Cambodian people, rallied close around the Royal Government of National Union under the leadership of the National United Front of Kampuchea, in warm response to the call of Your Highness Prince and the National United Front of Kampuchea, will certainly win the struggle for forcing the U.S. imperialist aggressors out of their soil and overthrowing the right-wing reactionary clique and building an independent, free, peaceful, neutral and prosperous Cambodia, I sincerely wish the Royal Government of National Union under the leadership of the National United Front of Kampuchea great success in its future work.

# DPRK Government Issues Statement in Denunciation of U.S. Imperialist Large-Scale Armed Invasion of Cambodia

*PYONGYANG, May. 4, (KCNA)—The Government of the Democratic People's Republic of Korea issued today a statement in denunciation of the U. S. imperialists' large-scale armed invasion of Cambodia. Follows the full text of the statement:*

The U.S. imperialists launched a large-scale armed invasion of Cambodia, thereby openly embarking upon spreading the flame of their war of aggression to the whole of Indochina.

On Nixon's order a large number of U.S. imperialist aggression troops in South Vietnam and South Vietnamese puppet troops charged into the territory of Cambodia on May 1 under the cover of aircraft, tanks, armoured cars and artillery.

The U.S. imperialist aggressors are bestially bombing and shelling many towns and villages of Cambodia and murdering defenceless civilians in cold blood everywhere.

The large-scale armed invasion of Cambodia by the U.S. imperialist aggression troops is not only an act of grossly trampling on the independence and sovereignty of Cambodia but also a virulent challenge to the entire Indochinese peoples and a criminal act of gravely menacing peace in Asia and the rest of the world.

Starting the armed invasion of Cambodia, the U.S. imperialists again perpetrated bombing of some areas of the Democratic Republic of Vietnam.

The U.S. imperialists are now leading the general situation in Asia to an extreme tension.

The Government of the Democratic People's Republic of Korea and the entire Korean people sternly denounce the U.S. imperialists' armed invasion of Cambodia as a most monstrous, brigandish acts of aggression and express firm militant solidarity with the Cambodian people who have risen up in a sacred struggle against the aggressors to defend freedom and national independence.

The armed attack of the U.S. imperialists on Cambodia is based on an aggressive plan which they had worked out from long ago. While expanding their war of aggression in Vietnam and Laos, the U.S. imperialists had threatened the Cambodian people by perpetrating incessant armed provocations against Cambodia, trampling on her independence, neutrality and territorial integrity, and at last manipulated the Cambodian right-wing reactionaries to stage a coup d'etat in March.

The U.S. imperialist aggressors have in the end gone the length of launching a direct armed invasion of Cambodia today, as the right-wing reactionary regime fabricated by them is facing the crisis of collapse, having run up against the powerful resistance of the patriotic Cambodian people.

In an attempt to "legalize" this vicious act of aggression, Nixon let out a string of bare-faced excuses that it was "to defend the security of American men" and it was to defend Cambodia from a sort of "aggression" and so forth.

With no brigandish logic, however, can the U.S. imperialists veil their criminal true color as the aggressors.

# Great Vitality of Association for Restoration of Fatherland Founded by Marshal KIM IL SUNG, Great Leader

We met the 34th anniversary of the founding of the Association for the Restoration of the Fatherland at a time when all the CHONGRYUN (the General Association of Korean Residents in Japan) workers and all Korean compatriots in this country are effecting new innovations in all the activities of CHONGRYUN to greet the 9th Congress of CHONGRYUN with higher political zeal and greater work success, upholding the teachings of Marshal Kim Il Sung, the great Leader.

On May 5, 1936, the Association for the Restoration of the Fatherland was organized by Marshal Kim Il Sung, the great Leader of the Korean revolution, making an epochal turning point in the anti-Japanese national united front movement of our country.

Its 10-point Programme served as a lighthouse of victory brightly illumining the road of struggle for the Korean people to take for the liberation and the independence of their fatherland in the darkest days of the Japanese imperialist rule of Korea.

Marshal Kim Il Sung's great revolutionary ideas embodied in the 10-point Programme of the Association for the Restoration of the Fatherland plus the undying feats performed in the course of the anti-Japanese national united front movement were inherited by the Workers' Party of Korea after the Liberation, with their great vitality being brought into full play.

Today, all the Korean people are filled with burning determination to inherit and develop splendidly the great revolutionary ideas of Marshal Kim Il Sung, his immortal feats and precious experience on the occasion of the 34th founding day of the Association for the Restoration of the Fatherland, while reviewing significantly the anti-Japanese national united front movement at the time of the anti-Japanese armed struggle organized and waged by the Leader.

He is the peerless patriot, national hero, genius military strategist and the great Leader of the Korean revolution. His founding of the Association for the Restoration of the Fatherland was an embodiment of his revolutionary ideas on achieving the anti-Japanese national united front by isolating Japanese imperialism and its stooges in the anti-Japanese national liberation struggle and organizing and mobilizing all the anti-Japanese forces on a nation-wide scale, and was not only a positive, offensive revolutionary struggle strategy to smash Japanese imperialism but one of the most important Marxist-Leninist strategies for the anti-imperialist national liberation struggle of the colonies.

Marshal Kim Il Sung said:

**"...The Korean revolution cannot be carried to success with the strength of few Communists alone.... The giant revolutionary forces of people in different walks of life comprising workers and peasants who have risen in an anti-Japanese struggle are available at home and abroad. They all must be rallied behind the revolutionary organizations and inspired more energetically to struggle for the overthrow of Japanese imperialism...."**

Marshal Kim Il Sung, the respected and beloved Leader, working out the 10-point Programme of the Association for the Restoration of the Fatherland

Being presented by Marshal Kim Il Sung, the line of anti-Japanese national united front was the most revolutionary line since it was designed to unite the masses of various strata to the maximum on the basis of the working-class-led worker-peasant alliance, build up the revolutionary forces and concentrate all available energies on the struggle against the main enemy Japanese imperialism.

Equipped with the powerful united front body, the Association for the Restoration of the Fatherland, the anti-Japanese national united front movement came to be undertaken on a nation-wide scale in close association with the anti-Japanese armed struggle and the work to prepare the founding of the Party, under the unified leadership of Marshal Kim Il Sung, the great Leader of the Korean revolution.

The 10-point Programme of the Association for the Restoration of the Fatherland which splendidly embodied the great *Juche* ideas of Marshal Kim Il Sung was a great revolutionary programme which creatively applied and developed Marxism-Leninism to the specific conditions of our country, the immortal revolutionary banner that lit the road for the Korean revolution.

The 10-point Programme was not only a programme of the united front but a reflection of the general demands of the revolution in the stage of the anti-imperialist, anti-feudal democratic revolution.

In the Programme he defined the immediate task of the Korean revolution as the anti-imperialist, anti-feudal democratic revolution, and clarified the tasks for winning power.

Seeking brilliant future in the 10-point Programme of the Association, the Korean people gallantly fought on, rallied rock-firm under the banner of fatherland restoration, taking boundless pride and glory in having Marshal Kim Il Sung as their great Leader of the revolution.

In this course the organizational and ideological preparations were made for founding the Party, and the general Korean revolutionary movement entered upon a great upsurge, centering around the anti-Japanese armed struggle.

The founding of the Association for the Restoration of the Fatherland and its great 10-point Programme brought the conviction of liberation and victory to the Korean compatriots wandering in Japan, looking for the means of living and led them to march forward forcefully, looking up to Marshal Kim Il Sung, the great Leader.

The anti-Japanese national united front movement of the Korean people, organized and waged under the command of Marshal Kim Il Sung, splendidly performed its international role of pioneer in the anti-imperialist national united front movement and the anti-imperialist common front movement, with its precious feats and ample experience greatly contributing toward the treasure-house of Marxism-Leninism.

The immortal revolutionary achievement and invaluable experience registered in the anti-Japanese national united front movement under the outstanding guidance of Marshal Kim Il Sung, the respected and beloved Leader, became the historic roots of the policy of the Workers' Party of Korea on the united front after the Liberation.

These precious roots enabled the entire people to achieve the invincible politico-ideological unity and cohesion on the basis of the worker-peasant alliance and to dash at the speed of Chollima, rallied rock-firm around the great Leader.

Upholding the strategic and tactical line for the South Korean revolution and the unification of the fatherland advanced by Marshal Kim Il Sung, the South Korean people, getting inspiration from the shining achievements in the socialist construction of the northern half of the DPRK, are now raising higher the flames of the anti-U.S., national salvation struggle, in order to promote the unification of the fatherland.

The tasks of the anti-imperialist, anti-feudal democratic revolution, which had been propounded by Marshal Kim Il Sung in the 10-point Programme of the Association for the Restoration of the Fatherland, were put into practice in a short span of time by the concerted efforts of different parties, groups and democratic forces of various strata after the Liberation. As a result, the northern half of the DPRK was turned into a mighty base of the revolution. Under his wise leadership, thanks to the existence of this revolutionary base, the Korean people could beat back the armed invasion of U.S. imperialism, defend the revolutionary gains, press ahead with the socialist revolution and the socialist construction under the postwar hard difficult conditions, and convert our country into a socialist power with the firm foundations of a self-sustenant national economy, impregnable defence capabilities and a brilliant national culture.

Today, U.S. imperialism and its stooges are further intensifying the machinations to provoke a new war in Korea and strengthening the fascist suppression of the South Korean people.

Particularly since the announcement of the "U.S.-Japan joint statement" the Japanese militarists have become more undisguised in their reinvasion of South Korea under the protection of U.S. imperialism, and emerged as a dangerous force to world peace, in short, the advance force, the shock-brigade in the U.S. imperialist policy of Asian aggression.

U.S. imperialism is clinging to its policy of having Asians fight Asians by actively mobilizing Japanese militarism and other Asian stooges. Under the misleading slogan of "Vietnamization of the Vietnam war, it is scheming to save its fate, doomed to the final ruin, by expanding the war flames to the whole of Indochina, to the whole of Asia if possible.

No force on earth will be able to hold in check the fierce anti-U.S., national salvation struggle of the Asian peoples who have risen for freedom and independence. U.S. imperialism is certain to be expelled from South Korea by the united strength of the Korean people, united rallied rock-firm around Marshal Kim Il Sung, their great Leader, and the independent peaceful unification of the fatherland is bound to become a reality.

As the undying feats and precious experience of fatherland restoration, the entire Korean people can work a miracle when they march forward, rallied behind Marshal Kim Il Sung, the great Leader of the revolution, with one mind and one will.

The entire CHONGRYUN workers and all the Korean compatriots in Japan will arm themselves thoroughly with the great revolutionary ideas of Marshal Kim Il Sung, their respected and beloved Leader and with the glorious revolutionary traditions established by him and will make every effort to promote national unification.

---

(Continued from page 1)

Who on earth menace the "security of American men?" The ruthless murderer of the American people is none other than the Nixon clique who are carrying on a beastly war of destruction by hurling hundreds of thousands of American youths into others' territories thousands of miles away from the mainland of the United States.

It is again none other than the U.S. imperialist aggressor himself who is plunging the Indochinese peoples into the scourge of war.

The U.S. imperialists' open armed invasion of Cambodia fully lays bare the foul nature of what they call "Nixon doctrine" which they invented to attain their aggressive aim by a more crafty and vile method and clearly proves that the so-called plan of "Vietnamization" of their war of aggression in Vietnam which they have stepped up has miscarried.

The U.S. imperialists intend to wriggle themselves out of the crushing defeat they have already sustained, by occupying Cambodia at a stretch by a win-the-war-quick operation, stifling the liberation struggle of the Cambodian people and expanding their war of aggression in Vietnam to the whole of Indochina.

This, however, is a foolish dream.

The intensified aggressive manoeuvres of the U.S. imperialists are no sign of their mightiness, but, on the contrary, are proof of their weakness.

The reckless acts of aggression of the U.S. imperialists in Cambodia will arouse the Cambodian people and the entire Indochinese peoples to a fiercer anti-U.S. struggle and further hasten their own doomsday.

The Cambodian people, rallied close around the National United Front of Kampuchea in response to the call of Prince Norodom Sihanouk Head of State, are now extensively waging an armed struggle and a massive movement against the U.S. imperialists and the right-wing traitorous clique, their stooges, in all parts of the country.

As was manifested at the Summit Conference of the Indochinese Peoples held some time ago, the peoples of three countries—Vietnam, Laos and Cambodia—are firmly resolved to unite close and beat down U.S. imperialism and its lackeys, defend their national rights and convert their countries into independent and peaceful areas and thereby contribute to the cause of peace in Southeast Asia and the rest of the world.

The grave situation now obtaining in the Indochinese Peninsula makes it incumbent on the socialist countries and the peace-loving peoples of the whole world to take determined measures for checking and frustrating the outrageous aggression of the U.S. imperialists and support and encourage more positively the Cambodian people and entire Indochinese peoples by standing firm on their side.

The Government of the Democratic People's Republic of Korea solemnly declares that it can never sit back and watch the developments in Indochina which may bring dangerous consequences directly to peace in Asia and the world and that it will do everything necessary to assist the fraternal Vietnamese, Laotian and Cambodian peoples in the just anti-U.S., national salvation resistance against the U.S. imperialist aggressors, the common enemy.

The U.S. imperialists should immediately discontinue their armed invasion of Cambodia and definitely stop bombing of North Vietnam and pull out of the whole area of South Vietnam, Laos and Cambodia without delay, taking all their aggression troops and lethal weapons along.

If U.S. imperialists persist in expanding their war of aggression in Indochina, they will be unable to escape more scathing denunciation by the peace-loving peoples of the whole world, the American people included, and will perish never to revive in the flame of war they themselves kindled.

# 1,000 Local Plants Built in 4 Months According to Teachings of Marshal KIM IL SUNG

PYONGYANG (KCNA)—The working people in the local industrial domain of our country have effected new innovations every day in developing the local industry, wholeheartedly upholding the teachings given by Comrade Kim Il Sung, the respected and beloved Leader, on Jan. 9, and his programmatic instructions at the National Meeting of Local Industrial Workers.

Comrade Kim Il Sung, the respected and beloved Leader, who set forth already long ago the original line of developing the large-scale central industry and medium- and small-scale local industry in parallel and roused the entire people to its implementation, leading to the appearance of over 1,000 local industrial factories in a matter of a few months, indicated again concrete direction and ways at the National Meeting of Local Industrial Workers for bringing about a new turn in the production of mass consumption goods by developing local industry more vigorously through a nation-wide movement.

The functionaries and working people in the local industrial domain throughout the country have turned out in the implementation of the instructions of the Leader and launched a vigorous struggle for building more daily necessaries' factories specializing in the production of some kinds of goods and medium- and small-scale local industrial factories suitable to the local peculiarities in each city and county and around big factories, while consolidating and developing the existing local industrial factories and further strengthening the daily necessaries' shops of the central industrial establishments.

Through this massive struggle, over 1,000 new medium- and small-scale local industrial factories (over 600 since the National Meeting of Local Industrial Workers) have made their appearance throughout the country in the recent four months of the year.

The 1,000 local industrial factories include over 180 ironware factories and 120 factories producing goods for cultural use and 60 foodstuff factories.

Thus, more daily necessaries and foodstuff factories have been built in all the local areas of our country—mountain and plain counties, factory and mine villages, forestry and fishery villages.

All these successes are a fruition of the outstanding and wise leadership of Comrade Kim Il Sung, the great Leader, who indicated the wisest and original ways for developing the local industry as well as the central industry and effecting a new upsurge in the production of mass consumption goods, adhering to the steadfast stand of *Juche*, in each stage of the development of the revolution and roused our Party and people to its implementation. They are also an expression of the burning loyalty of our working people who push through the instructions of the Leader to the end and a fruition of their inexhaustible creative energy.

Comrade Kim Il Sung, the respected and beloved Leader, taught us:

**"...By the nation-wide movement we mean that each local area builds small factories and produces foodstuffs and daily necessaries on a large scale with its own force and through the mobilization of local resources, without large state investment."**

Upholding the teaching of the Leader, the local power organs took concrete measures to expand and develop the local industry through a mass movement for self-sufficiency in mass consumption goods, as the household head responsible for the livelihood of the people in the province, and forcefully pushed them through. And it strengthened the organizational work to see that the province helps the county, the central industry helps the local industry, the big factory helps the small factory and all join efforts for actively assisting the local industry.

The central industrial establishments in the domains of engineering and other industries took charge of more than one local industrial factory each and actively assisted the local industry, waging an energetic machine-begets-machines movement, to consolidate their material and technical foundations. The Chollima June 15 Machine Building Plant manufactured more than 330 machines of 30 kinds including rolling machines, presses and table-lathes, through a movement for each workshop producing more than one machine and each worker more than one accessory for the local industrial factories under its charge.

The Hwanghae Iron Works and the Chollima Kangson Steel Works supplied small rolling equipment and chemical factories in Hamhung chemicals necessary for consumer goods to the local industry.

The new local industrial factories which have risen up with the powerful support of the central industry under the wise leadership of the respected and beloved Leader, are producing consumer goods of wide variety, changing their looks day by day.

Upholding the teachings of Comrade Kim Il Sung, the respected and beloved Leader that **"The central task in the field of light industry is to enhance the quality of consumer goods, expand their variety and lower their production cost,"** the local industrial workers are energetically waging the struggle for assigning varieties suitable to the local raw material resources and producing better, more and cheaper the consumer goods demanded by the working masses.

Thus, the newly set up local industrial factories throughout the country produce more than 2,300 kinds of daily necessaries, processed foodstuffs, textiles and clothes.

The entire working people in the domain of local industry are now advancing vigorously at "Kangson speed," the new Chollima speed, with the resolve to bring to brilliant realisation the grand plan of the fatherly Leader to increase the production of mass consumption goods several times and markedly expand their variety and raise the quality of all the consumer goods to the advanced level in the near future to make the people live a more bountiful and cultured life.

**The working people in the domain of local industry advancing vigorously at "Kangson speed" with the resolve to bring to fine realization the grand plan of the great Leader Marshal Kim Il Sung to increase the production of mass consumption goods, expand their variety and raise their quality**

## Korea Railway Ass'n Formed

The Korean Railway Transport Association was formed on Apr. 17 in Pyongyang.

This association organized with scientists, technicians and specialists in the field of railway transport of the DPRK on a voluntary principle is a scientific and technical organization to establish more thoroughly the unitary ideological system of the Workers' Party of Korea in the railway transport domain and accelerate the technical revolution, upholding the teachings of Marshal Kim Il Sung, the respected and beloved Leader, and policies of the Party. The association will organise and conduct the work to study and disseminate latest science and technology in the domain of railway transport and steadily improve the qualifications of the railway transport workers.

The association will also take an active part in international organizations and meetings of world railway transport for the development of railway transport, develop relations of friendship and cooperation with scientists, technicians and specialists in this domain of the world and conduct scientific intercourse, firmly adhering to the stand of *Juche*.

On the other hand, the Korean Fishery Association was inaugurated in Hamhung on Apr. 23.

## Korea-Hungary Mutual Press Coop Agt Signed

An agreement on mutual cooperation between the Korean Journalists Union and the Hungarian Journalists Union was signed in Pyongyang on Apr. 29.

Present at the signing ceremony from the Korean side were Chong Jun Gi, Chairman of the CC of the Korean Journalists Union and personages concerned and from the Hungarian side Sevestijen Jeno, Ambassador and a staff member of the Embassy of the Hungarian People's Republic in Pyongyang.

# Pak Jung Hi Clique's 9 years Of Nation-Selling, Terror and Plunder

Just nine years ago, the U.S. imperialists had the Pak Jung Hi clique stage a military coup and impose the most barbarous colonial military fascist rule on the whole of South Korea, in a bid to get rid of the devastating crisis of their colonial rule.

The Pak Jung Hi clique, seated in puppet government, engaged in criminal plots to stamp out the patriotic struggle of the South Korean people and leave the country and the nation to the mercy of the foreign aggressors. The U.S. imperialist masters wirepulled the puppet clique in their criminal actions.

Marshal Kim Il Sung, the respected and beloved Leader, said:

**"The military fascist dictatorship established in South Korea, as a product of the U.S. imperialist policies of colonial enslavement and war, faithfully serves U.S. imperialism. It has assumed an unprecedentedly ferocious and barbarous nature and become a pattern of the atrocious fascist rule of the imperialists over colonies."**

The U.S. imperialists and their stooges Pak Jung Hi clique rigged up more than 4,000 fascist laws, including the "National Security Law" and the "Anti-Communist Law," and set up numerous suppressive machines led by the "Central Intelligence Agency," covering the whole of South Korea with a military, police, intelligence and secret service network and placing it in a state of a living hell. So, terror and suppression came to reign the South Korean society.

In recent years, the scoundrels, intensifying the policy of aggression and war, worked hard to "streamline" the fascist suppressive system and boost its strike force extensively, in order to suppress brutally the patriotic democratic forces of South Korea.

During the past year alone, U.S. imperialism and its lackeys Pak Jung Hi clique forged countless "spy cases" and arrested and imprisoned large numbers of revolutionaries and patriots. Among the rigged up "cases" are the "case" of the Revolutionary Party for Unification, the "case" of the People's Revolutionary Party, the "case" of the South Korean Liberation Strategic Party, and the "case" of the revolutionary organization in Imja Island. The ruthless scoundrels murdered in cold blood Kim Jong Tae and Choi Yong Do, ardent patriots and indomitable revolutionary fighters, both leading figures of the Revolutionary Party for Unification.

Early in March, the scoundrels shamelessly imposed death sentence and life imprisonment upon many patriots, led by Kim Kyu Nam and Pak Dae In, who had fought for the democratization of the South Korean society and unification of the fatherland. On May 2, the beasts arrested and imprisoned 21 revolutionaries and patriots who had organized an underground revolutionary organization in Seoul and the South Chungchong provincial areas and struggled against the colonial rule of U.S. imperialism.

The purpose of the U.S. imperialists and their minions in their fascistization policy is in elimination of all the elements which are supposed to stand in the way of the implementation of their colonial rule and provocation of the aggressive war.

Counting upon the terrible military fascist dictatorship, the U.S. imperialist aggressors and the Pak Jung Hi gang are engaged in unending military provocations aimed at the northern half of the DPRK. They put the whole of South Korea on a "war footing" and reinforced the U.S. occupation forces and the South Korean puppet army with modern weapons and are now hurriedly arming the two million-man reserve forces.

Recently, they have built new military airstrips, harbours, rocket bases and strategic roads, or extensively expanded the old ones, with increased military provocations against the northern half of the DPRK. During the three months of this year, they committed over 2,100 cases of military provocations.

Not only this. They have invited to South Korea reconnoitering groups of Japanese militarism in the name of "fact-finding missions" or "delegations." Claiming that Korea lies on the "defence line" of Japan, Japanese militarism has sent brass of the "Self-Defence Forces" to inspect the Military Demarcation Line for working out "operation plans."

The strict colonial military fascist rule of the U.S. imperialists and the Pak Jung Hi clique and their war machinations have converted South Korea into a dark land. South Korea is totally deprived of its sovereignty, its national economy thoroughly subordinated to foreign monopoly capital.

Clamouring for misleading "high growth" or "modernization," U.S. imperialism and the Pak Jung Hi puppet clique have induced "foreign capital," its total amount reaching 2.43 billion dollars.

The countryside lies in ruins. The grain output decreased by 2.4 million tons in comparison with the average annual figure of the past

(Continued on page 4)

# Marshal KIM IL SUNG Organizes CHONGRYUN; Extends All Solicitude to Koreans in Japan

CHONGRYUN (the General Association of Korean Residents in Japan) workers and Korean compatriots in Japan are actively preparing to greet the 15th birthday of CHONGRYUN and its 9th Congress, in keeping with the vigorous march of the people in the homeland who are dashing forward at a new Chollima speed, "Kangson speed," in order to salute the 5th Congress of the Workers' Party of Korea with higher political zeal and greater work success.

Marshal Kim Il Sung has showered warm fatherly love on the 600,000 Korean citizens in Japan. He is the great Leader of the 40 million Korean people and the sun of the nation who has led the Korean people constantly to victory and glory, happiness and prosperity, for more than 40 years since he took the road of revolution, shouldering the destiny of the fatherland and the nation.

On returning home after defeating Japanese imperialist aggressors, Marshal Kim Il Sung indicated the clear-cut direction of struggle for the Koreans in this country under the complex post-Liberation political circumstances.

Drawing boundless inspiration from the victorious homecoming of Marshal Kim Il Sung, their respected and beloved Leader, the Koreans here organized JORYUN (the League of Koreans Residing in Japan) in October 1945, their first united front body, and set the patriotic movement going.

By founding their glorious fatherland, the Democratic People's Republic of Korea, Marshal Kim Il Sung gave them the honour of becoming its overseas citizens, and brightly illumined the road they should follow to win victory.

However, the U.S. imperialists were already planning the coming Korean War, and carried out brutal suppression, instigating the reactionary forces of Japan into disbanding the League of Koreans Residing in Japan in September, 1949, fearful at the expanding activities of JORYUN and the patriotic forces of Korean citizens in this country.

Wholly inspired by the heroic struggle of the people of the homeland being waged against the U.S. imperialist aggressors, Korean compatriots carried on stubborn resistance, rebuilding their strength against tremendous odds.

Marshal Kim Il Sung set out the clear-cut tasks for the Korean people in Japan to rectify the line of the patriotic movement to meet the prevailing situation and fully establish *Juche*.

Pointing out that Korean compatriots in Japan must engage in patriotic activity for the fatherland while living in an alien country, and that for the Korean revolution to succeed was to help the revolution in other countries, Marshal Kim Il Sung taught that what was most important was that Korean compatriots should never interfere in the internal affairs of Japan but struggle only for the defence of their democratic national rights and promotion of the independent unification of the fatherland.

This policy was the correct poliey. It made it possible not only to unite all patriotic democratic forces in the anti-U.S., national salvation struggle and help to bring about the earlier unification of the fatherland, but would repulse the suppressive measures of the U.S. and Japanese reactionaries and vigorously increase the patriotic activity of Korean citizens living in Japan.

These teachings given by Marshal Kim Il Sung to Korean citizens in Japan were an historic turning point in their life and in the development of their patriotic activities.

Koreans in Japan found their future course in his guidance, and in May 25, 1955 organized CHONGRYUN, their only organizations which represented and protected their interests and rights.

After founding CHONGRYUN, Marshal Kim Il Sung helped it develop into a powerful organization as we see today. He has protected it with the feeling of a father more concerned about children of his living separated far away from him than those living together with him.

The Leader took all the necessary measures to help the Koreans in Japan to defend their honour and dignity as the DPRK citizens. He also extended profound solicitude to the national education of their children, one of the most pressing tasks of their life in Japan. He opened the sea route of repatriation to take them to his benevolent chest. Marshal Kim Il Sung has remitted huge sums of foreign currency to Japan as educational aid funds and stipends to Korean children in Japan. This remittance of valuable foreign currency is intended to encourage and develop the national education of Korean children.

**The Korean pupils in Japan are growing happily and with nothing to envy under the warm care of Marshal Kim Il Sung, the great Leader of the 40 million Korean people. They express their heartfelt joy when they have heard the news of the recent remmitance of the educational aid funds and stipends from their fatherly Leader.**

The remittance, starting in 1957 when the people in the homeland carried on the postwar economic reconstruction with their belts tightened, has been conducted on 35 occasions, bringing the total amount of the remitted money to 9,1-17,317,133 Japanese yen.

Thanks to his warm fatherly love and care, now more than 40,000 Korean children attend 155 regular Korean schools of all levels including Korean University whose equipment is a fair match to that of leading universities of this country. They are working hard to become fine workers for fatherland unification as the faithful sons and daughters of Marshal Kim Il Sung, the fatherly Leader of the 40 million Korean people.

Among the national citations conferred upon Koreans here by Marshal Kim Il Sung are Medals of National Flag of various degrees, Labour Medals. He also conferred upon Koreans here the DPRK professorship and assistant professorship, the title of Merited Teachers, Merited Artists, Merited Actors and Actresses, Merited Sportsmen and Master of Sports.

He also gave representatives of Koreans in various walks of life the honour of becoming Deputies to the Supreme People's Assembly of the DPRK, enabling them to directly participate in the state affairs.

Marshal Kim Il Sung said:

**"...CHONGRYUN should build its rank more reliably, continuously bending much effort for rallying its functionaries and compatriots in Japan firmly around the Workers' Party of Korea and the Government of the Republic by arming them with the ideas of *Juche* and revolutionary traditions of our Party and strengthening the education in socialist patriotism among them.**

**Especially, it should further develop the Model Branch Creating Movement among the masses of the compatriots by strengthening the unity of functionaries in ideology and will based on the unitary ideological system of our Party."**

This teaching of Marshal Kim Il Sung's is a programmatic compass to CHONGRYUN activities.

Therefore, filled with boundless respect and adoration for Marshal Kim Il Sung, CHONGRYUN workers and Korean citizens in Japan are making all efforts to make his *Juche* ideas their bones and flesh, so as to be singleheartedly loyal to him.

CHONGRYUN has its Central Headquarters, 48 prefectural headquarters, more than 300 chapters and over 2,000 branches, covering the whole of Japan where Korean communities are found.

The Korean Credit Associations (banking institutions) have a deposit of a total of over 100 billion Japanese yen.

This is not the end of the story.

Thirteen social organizations including the Korean Youth League in Japan and the Korean Democratic Women's Union in Japan, and 13 enterprises are affiliated with CHONGRYUN.

It publishes hundreds of thousands of copies of 34 periodicals, many of which are circulated among the peoples of the five continents.

The development of CHONGRYUN into a powerful organization is totally attributed to the wise leadership and kindred care of Marshal Kim Il Sung, the great Leader.

As the brilliant Leader of the revolution, Marshal Kim Il Sung has not only supplied CHONGRYUN workers and Korean citizens in Japan with the great ideas of *Juche*. He also equipped them with a mighty weapon by creating the Chongsan-*ri* spirit and Chongsan-*ri* method.

Marshal Kim Il Sung's Chongsan-*ri* teaching is giving fuller play to its vitality in the activities of CHONGRYUN as the days go by.

The model-creating movement dating back to 1961 produced six Twice Model Branches and over 100 Model Branches by the time of the 8th Congress of CHONGRYUN.

This same model-creating movement, after the 8th Congress, developed into a broader-based mass movement, involving more than 3,000 units of CHONGRYUN, wherever Korean compatriots live. Already, some one-third of the participating units won the title of Twice Models or Models. The number of Twice Models increased eight-fold over the figure at the time of the 8th Congress, and the model groups 4.5 times.

As a result, the Model-Branch Creating Movement has developed into the Model Chapter-Creating Movement, and has become the motive force in the development of the work of CHONGRYUN.

The respected and beloved Leader enabled CHONGRYUN to be strengthened as an internationally-known organization, so that it might carry out its patriotic work more effectively.

Today, it has become a mighty organization permeated by the revolutionary ideas, *Juche* ideas of Marshal Kim Il Sung, the great Leader of the 40 million Korean people. It has developed into a strong organization capable of firmly defending the democratic, national rights of Koreans here and promoting the independent peaceful unification of the fatherland.

Only genuine happiness and brilliant victory are in store for the Korean people in Japan who are determined to move forward, guided by the teachings of Marshal Kim Il Sung, the great Leader of the 40 million Korean people, and protected by his warm fatherly care.

---

(Continued from page 3)

Japanese imperialist colonial rule. The South Korean rural areas, once called granary areas, became a land of chronic famine.

Since the military coup the masses of people have been further impoverished, languishing under the "worst living difficulties in 4,000 years."

In the past nine years the prices went up 3.5 times, the taxes increased 14.5 times, while the national income decreased by 40 per cent. Now, about eight million unemployed or semi-unemployed are wandering through South Korea, with out any hope. Even the fortunate workers have to work 12-18 hours a day, receiving only starvation wages, the amount less than one-fifth of the living costs. Their life is becoming harder and harder.

Not content with forcing the South Korean people into such miserable situation, the Pak Jung Hi clique, minions of U.S. imperialism, forcibly drafted South Korean youth and middle-aged into the U.S. imperialist aggressive war in Vietnam as cheap cannon fodders, and are going so far as to sell the people to foreign capital and plantation owners.

The Pak Jung Hi clique's nine years are marked by the expansion of the army and police and increase in the numbers of prisons and evil laws. They are also characterized by the sharp increase in taxes, plunder and in the number of famished peasants and unemployed.

Increasing numbers of South Korean people have risen in the struggle to smash the U.S. imperialist colonial rule and overthrow the Pak Jung Hi fascist gangsters, being unable to bear any longer the ruthless fascist terrorist rule of the scoundrels.

Looking to and adoring the great Leader of the 40 million Korean people Marshal Kim Il Sung as the sun of the nation, they are expanding their struggle as the days pass, upholding the line indicated by him for the South Korean revolution and the unification of the fatherland.

The indomitable revolutionary activities of members of the Revolutionary Party for Unification graphically show the heroic struggle of the South Korean revolutionaries and patriots who are fighting, armed with the great revolutionary ideas of Marshal Kim Il Sung, the genius Leader of the Korean revolution as his faithful soldiers.

Moreover, the South Korean people in all walks of life including workers, peasants, youths and students vigorously undertook various forms of struggle, such as strikes, sit-ins, sabotages and demonstrations, in order to win the right to decent living and democratic rights, to achieve the independent peaceful unification of the fatherland.

The South Korean people are becoming more awakened and trained in the trials of hard struggle against the enemy, with their might increasing.

The entire Korean people and the peoples of the world firmly stand behind the sacred anti-U.S., national salvation struggle of the South Korean people who are marching forward, upholding the teachings of Marshal Kim Il Sung, the great Leader of the 40 million Korean people. No force on earth can stand in their way.

## Poverty, Racism and Segregation in a Police State

# What It's Like in South Korea

### *American Servicemen's Union's "THE BOND" Article*

*"Poverty, Racism and Segregation in a Police State: What It's Like in South Korea" is the title attached to an article printed in THE BOND, organ of the American Servicemen's Union (ASU), dated Jan. 15, 1970, prepared by former American soldier, Jon King (PFC).*

*In the article ex-American PFC says that "I never did see any evidence of a democracy that deserved to be defended. I did however see many incidents where GIs, especially lifers, hit Koreans and went unpunished, and "The relationship of guest in South Korea is reversed by Americans being the masters in a very unequal relationship."*

*The following is its gist:*

Shortly after I reached South Korea I was ordered to the CO's office for a lecture on conduct that was expected of us in our relations with the South Korean people.

No attempt, however, was made to give even a small bit of information that would tell me about Korean customs, or ways which guests were expected to behave in Korea. I never again heard anything about American soldiers being guests, and I never did see any evidence of a democracy that deserved to be defended. I did however see many incidents where GIs, especially lifers, hit South Koreans and went unpunished.

I made a lot of friends among the South Koreans while I was there. They seemed to dig the fact that I didn't call them "gooks," "slopes," or any of the other sorry-ass racist names they're used to being called. It was a good thing that I didn't. I didn't have to spend all my time in the Union Seaman's Club when I was in Inchon, the California Club, or the Rose Bar when I was later thrown out of the 46th Trans. Co. and shipped up to Euijongbu But I did get to a lot of nice places down in Seoul, and in Inchon itself. When you get away from the typical GI bars, the Koreans seemed to dig you when you met them on equal terms.

Once when I asked one of my South Korean friends, Lee, what he thought of Pak Jung Hi, the "President" of South Korea he gave me a look of shock and fear. Shock that I should ask a question like that and fear that a member of the Korean Secret Police would overhear us. "There are police everywhere," he told me.

Another time during an election, I asked which candidate he would prefer.

"There's no difference," was his response.

Many of the South Koreans I spoke to were anxious to leave their "democratic" country. Even the ones who had gone to college were afraid that they wouldn't be able to find work. Unemployment is very severe in South Korea, and some of the women who graduate from Li Hwa University in Seoul are forced to become prostitutes in order to survive.

Nobody who has been to South Korea can forget all the naked children, or little kids carrying infants on their backs trying to beg some money from the people who do have money in South Korea, the GIs. Nor can I forget the other evidence of the fantastic poverty, women washing their clothes in streams by the side of the road, young kids unloading heavy bags of coal in the port of Inchon, children with terrible skin diseases patched up with home-made remedies, farmers using honey-buckets to fertilize their fields for lack of any other fertilizer, old men plowing with wooden plows because they've got nothing better, men pulling heavy carts which is work for a horse not a man, and orphans everywhere.

It's no joke that South Koreans eat dogs and cats. It's because many of them are half-starved and can't get any beef, either because it's too expensive or unavailable. What kind of democracy is it that can't even feed its people or provide them with decent jobs or housing?

And I surely didn't begrudge them a box of C rations or a funky field jacket which would keep them half-way warm.

The fear that Koreans express in talking about their government is understandable when you see the treatment that they receive from their NCOs or from anybody who outranks them for that matter.

One of my first views of this kind of discipline was brought to my attention very soon after I had arrived in the 46th Trans. Co. While I was heading down the company walk on my way to the hooch I was supposed to call home, I saw three privates stripped to their waists in the South Korean NCO hooch being beaten with a broomstick by their platoon sergeant. I couldn't believe that such stuff could go on. So I asked another guy in my company, somebody who had been there a little longer than I what the story was. He told me that it went on all the time. And I soon found out that it did go on all the time.

One day the South Korean dispatcher was called into the First Shirt's office to get a dressing down. The South Korean First Shirt smacked him for having written a trip-ticket for a man who had gotten caught selling some gas downtown. This went on as if it were the dispatcher's fault. After Kim was smacked he made a move as if to defend himself and that was a mistake because his First Shirt took him into CO's office which adjoined the orderly room, and five minutes later the dispatcher came out with his teeth smashed and his eye bleeding.

The ironic thing about the incident was that this same Korean First Shirt used to extort a fantastic sum of money every week from every Korean driver for the gas that were supposed to sell.

The relationship of guest in South Korea is reversed by American being the masters in a very unequal relationship. The South Korean soldiers who have it rough enough in their own companies are further abused by the Americans. It's not always in a physical way but equally as ugly. In a reflection of American racism, South Koreans are subjected not only to name-calling but also if they live in the same billets as GIs and not in a separate hooch, it is always at their own end of the billets.

One incident occurred which brought out the racist attitudes of the military. A lieutenant was sitting in a snack bar with a girl who worked for the Red Cross. Being an American Indian girl, she had fairly oriental appearance. The wife of the commanding general of the 8th Army approached him and chewed him out for being seen in public with a prostitute.

This attitude is typical of one that labels all South Koreans as either slicky boys or prostitutes. This is to justify the American Army segregating the Koreans from the Americans. The Army is perfectly willing to have the Koreans drive their trucks, wash their clothes, serve as KPs, unload their ships, and in general, work as cheap labour; but they are unwilling admit to their equality.

It's much like in the States with black people being used as cheap labour, and being treated as inferiors. Actually being shot for demanding their freedom. Brass, military and civilian, brings its racist tactics everywhere it goes, to justify its exploitation of the people it is supposed to be trying to help, or "defend."

Once when I was walking down the street holding hands with a Korean girl, I was told by two MPs that I'd get a Disciplinary Report for showing affection in public for a national, the name attached to all non-Americans where the United States serve as protectors.

Of course we were given a nice description of our reason for being in Korea, that of defending "Freedom's Last Frontier." But I learned better. And I found out that the Koreans were hip to it also.

I found that out in very graphic terms, how they felt.

When the students of Seoul were protesting in Seoul over a treaty that the South Korean government was about to sign with Japan, former imperialist rulers of Korea, they not only stoned the South Korean police who came to enforce the martial law which was declared, but they also stoned American convoys passing through Seoul. As long as they were presenting grievances against Japan, their former occupier, I guess they were feeling they should express their feeling against their present occupiers.

GIs are learning that the same Army which messes over them used them as instruments to suppress other people. And when they get organized they will start to refuse to be shoved around and used this way any more.

The Hood 43 refused to go to Chicago. Thousands have refused to go to Vietnam. The day will come when they will all refuse to go anywhere for the benefit of the Brass.

# *U.S. Imperialist Bosses Run South Korea*

This is a note by former American soldier Pete Straus. Pete returned from his "Korean duty" in December last year. He was stationed two miles from the DMZ with the Hq. Co. Support Command of the U.S. imperialist 2nd Infantry Division.

His article appeared on THE BOND, organ of the American Servicemen's Union (ASU), dated Mar. 18, 1970. It reads in part:

If you're a GI on Korea's DMZ, here's what you can expect: BULLSHIT. Long, cold hours in a foxhole on the barrier, worrying that something might "happen"—and of course much more "happens" than people stateside get to know.

The worst of living conditions, and of course being harassed and treated like shit by the ever-present lifers. If they bust you, there's no civilian lawyers. And the stockade makes stateside brigs look good—no snooping Congressman around.

And if something "big" starts? The Imjin River runs along the DMZ a mile to the south, and the frontline GIs north of the river only have two bridges (Libby Bridge and Freedom Bridge) connecting them to the rear (where the big Brass stay). It's known to most GIs on the DMZ that if the "big thing" starts, Libby Bridge and Freedom Bridge will be blown up immediately—BY THE U.S. ARMY. Leaving two brigades of the 2nd Infantry Division to die with the river behind them. The DMZ GI is in a permanent death trap.

The DMZ GI might not have to wait for something "big" to die in Korea for South Korean "freedom." Like the 4 guys who got killed last year when some lifers screwed up and sent them inside the DMZ. No one goes inside the DMZ without two gun jeeps. But these guys got ordered into "no man's land" alone in a truck, to fix some commo wires. They didn't know their rights, and the lifer had his way. The result: U.S. headlines screaming that four of our boys were murdered. By whom?

Or the patrol in the DMZ last March that went pinned down for a half hour by American fire. Why? Their lieutenant patrol leader forgot to radio into the GIs on the barrier that his patrol was coming back through.

And at the same time, right next door on the part of the DMZ held by the South Koreans, the South Korean tinhorn officers direct their men to start firefights almost every night. And every time they fire their guns into North Korea, they put thousands of GI lives on the line—so they can get their bogus promotions and whip up a little fuss.

The GI lives 13 months in shit, and may die there. For what? To defend the "freedom" of South Korea? The South Koreans are so free that they can't have an honest election, can be shot if they're caught listening to a North Korean radio program or just saying that they want Korea unified again, or for doing or saying anything their crooked police and government don't like.

THE BOND
--STRIKE
Poverty, Racism and Segregation in a Police State
What It's Like in South Korea
You-Freeze Your Ass in Korea — and Maybe Die

**"The Bond," the American Servicemen's Union newspaper carrying articles on the realities in U.S. imperialist-occupied South Korea**

50,000 American troops have been in South Korea for 18 years, and it looks like they will be there forever. The American stamp is being put on everything that used to be Korean—the U.S. bosses run their country, and the crooked government runs the people and drains their money. How long do the South Koreans want to be occupied by a foreign army, and having a foreign government running their country? (There are no foreign troops in North Korea.)

South Korean "President," Pak was an officer in the Japanese occupation army 30 years ago, when the Japanese ran Korea, outlawed the Korean language and enslaved the people.

Ask a South Korean, and he will tell you that the GI is "number one," and the North Koreans "number ten." But wait. You're an American soldier; to him part of the power of President Pak and President Nixon. The South Korean secret police is the largest in the world per population. Would a South Korean speak his mind? Would he tell you how he wishes that Korea was unified and there were no foreign soldiers?

At the same time, thousands of GIs live in shit on the Korean Death Trap (DMZ), and maybe will die there, to keep the puppet South Korean government in power, to occupy and degrade an old, proud country that wants itself back again.

The GI freezes on the DMZ, hoping to get home alive, takes the lifer bullshit, and he waits. But how long?

# DEMOCRATIC PEOPLE'S REPUBLIC OF KOREA MERCHANDISE SHOW

*Goods on Display*

**Machinery:** machine tools; pumps; electric appliances; tools

**Ores and Metal Goods:** minerals (including some specimens); rolled steel materials; non-ferrous metals; magnesia clinker; tungsten alloys

**Textile:** woven goods; knitted articles

**Foodstuffs, Daily Necessaries and Luxuries:** ceramics; glass products; plastic daily-use goods; vinyl goods; cosmetics; steel daily-use articles; liquors; canned goods; cured fish; insam goods; industrial art works; handicraft articles; grass-made goods; traditional Korean instruments

**Building Materials**

**A total of 4,800 commodities of some 200 kinds on exhibit**

*Duration:*

***May 15—October 31***

*9:00 a.m.—9:00 p.m.*

*Site:*

***The Korean Hall of Commerce and Industry***

**Located in front of JNR Ueno Station, Tokyo**
**TEL. (843) 1591-1592**

**The programme includes a photo display and a technicolour documentary film show.**
**Some exhibited goods are on sale.**

*Sponsored by*
**The Tonghe Trading Co., Ltd.**

*Patronized by*
**The Federation of Korean Traders and Industrialists in Japan**
**The Federation of Korean Credit Associations in Japan**

*With cooperation of*
**The Japan-Korea Association**
**The Japan-Korea Trade Association**
